

CX-120 Direct Card Printer

Reliability and Performance

CX-120 direct card printer has all the features that are required in the market. Despite the compact shape, it generates incredible high speed less than 20 sec/card and high durability which makes excellent image (or high resolution) last till the end.

High speed printing

High speed printing is achieved by horizontal card feeding DNP CX printer series adopted an unconventional horizontal card feed. This method shortens card feeding path and achieves high speed throughput of 20 seconds per card at YMCKO full colour edge to edge printing. USB2.0 interface also reduces data transfer time

Meet Various Requirements

Providing more durability and security on your cards has become more important issue these days. You can use a field up-gradable lamination unit CL-500D which gives the fastest single side print & lamination at 40 seconds per card. In addition, CX-120 offers options for magnetic strip, chip and contactless chip encoding

The Latest Generation of High Speed Plastic Card Printing

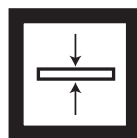

- high speed printing
- easy to use
- superior quality printing

Specifications

Key Features	<ul style="list-style-type: none"> ■ Superior Print Quality ■ Full Bleed Edge to Edge Print ■ Glossy Photo Finishing
Printing method	Re-Transfer Dye Sublimation Process
Dual Sided or Single Sided	Dual Sided
Resolution	300dpi
Display	LCD Display
Print Speed	<ul style="list-style-type: none"> ■ Single Full Colour (YMCKO) -20 secs ■ Lamination Speed -20 secs
Cost Per Print	<ul style="list-style-type: none"> ■ \$0.61 per card (YMCKO) ■ \$0.39 per card (YMCKOK)
Card Range	10MIL - 30MIL (0.25 - 0.76mm)
Input Hopper Capacity	100 cards
Output Hopper Capacity	100 cards
Interface	USB 2.0 (Hi-Speed)
Print Area	Edge to Edge (except 0.2mm bleed)
Printer Weight	12.0kg
Printer Dimensions	W299 x D324 x H308mm
Warranty	1-year return to depot service printer warranty 1-year unlimited prints print head warranty
Safety Standards	UL, VCCI-B, FCC Class B, EN Class B, CE
Options	<ul style="list-style-type: none"> ■ Laminator (Single Sided) ■ Card Sense Single Feed Kit ■ Network (LAN) Operation ■ Magnetic Stripe Encoding ■ Contactless Smart Cards ■ Contact Smart Cards

** Print speed indicates an approximate print speed and is measured from the time a card goes into the printer to the time it ejects from the printer. Print speeds do not include encoding time or the time needed for the PC to process the image. Process time is dependent on the size of the file, CPU, amount of RAM and the amount of available resources at the point of time

Dual Sided

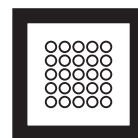

1 Year
Warranty

20secs/card

0.25 - 0.76mm

300DPI

High volume printing with the highest reliability User friendliness/Ease of operation

DNP associates its name only with the most reliable card printers. Whether you print several cards or several thousand cards, the CX-120 maintains excellent quality. High capacity YMCKO ribbon containing 750 image reduces the frequency of ink ribbon change..

SMP (Status Monitor Program) shows the printer status and makes it possible to change the parameters for printing from your PC. Detachable card hopper gives you the choice of replacing the whole hopper or just adding more cards in it according to the type of job you do.
