

Javelin J110i

The Javelin J110i is a reliable, compact and easy-to-use card printer that delivers outstanding performance at a great price. The Javelin J110i gives you versatility and is cost effective for a wide variety of applications including Employee ID and Access Cards, Student and Faculty ID's, Membership Cards and Personalised Loyalty and Gift Cards

Versatile

Print in full colour or monochrome. Choose automatic multi-card feed or CardSense™ single card feed. Its compact, sleek design lets you put the Javelin J110i just about anywhere.

The Latest Generation of High Speed Plastic Card Printing

- click and print
- single sided card printing
- compact footprint
- cost effective

Easy-to-Use

Intuitive design reduces training costs. Blue touch points indicate user touchable features. Translucent card cover allows you to see when card supply is running low. No-tools-necessary print head replacement.

Innovative Patent-Pending Technology

The Javelin J110i uses high strength plastics and advanced electronics for reduced size and weight and outstanding performance. Easy to replace Load-N-Go™ ribbon cartridge with integrated card cleaning roller features automatic set-up and low ribbon warning indicator.

** Print speed indicates an approximate print speed and is measured from the time a card goes into the printer to the time it ejects from the printer. Print speeds do not include encoding time or the time needed for the PC to process the image. Process time is dependent on the size of the file, CPU, amount of RAM and the amount of available resources at the point of time

Full colour images

Direct to card dye-sublimation printing technology puts sharp, clear images directly onto the surface of the ID card.

Relax with a 3 Year Warranty

Peace of mind comes standard on every Javelin J110i quality printer

Load-N-Go Ribbon cartridge

Simply slide the ribbon cartridge in, close the door, and you're done. There's nothing to feed, no messy inks, nothing to tear.

Make your cards more versatile

Optional magnetic stripe encoding module can add functionality to ID cards, for applications such as access control.

One side or two?

Javelin J100 series printers comes in both single and double sided models. If you only need to print on one side of the card, choose the functional J110i single sided card printer. But if you require the flexibility of double sided printing, to put a barcode or other information on the back for example, choose the Javelin J120i. Either way, you are guaranteed the best click and print card printing solution available.
